Storage, Security & Services: Core Data, Realm, Firebase, Push Notifications, WebRTC, Keychain, Obfuscation, File Manager
Tools & CI/CD: Xcode, VS Code, Git, Jira, Source Tree, SPM, CocoaPods, Bitrise, GitHub Actions, SonarCloud, Codecov, TestFlight, App Release, Logging

WORK EXPERIENCE

Specialist Software Engineer, LTIMindtree, Hyderabad | Aug 2025 - Present

IT Analyst (C2 Grade), Tata Consultancy Services, Bangalore | Oct 2022 - Aug 2025

- Worked on premium audio solutions for earbuds, headphones, speakers and soundbars.

iOS Developer, Soverg Pvt. Ltd, Bangalore | Feb 2022 - Sep 2022

- Worked on a social media management platform in a startup environment.

Digital Assistant, Government of Andhra Pradesh, Andhra Pradesh | Nov 2019 - Feb 2022

- Nodal officer for all IT-related activities for the Grama Panchayat.

Software Engineer, Pratian Technologies, Bangalore | Sep 2017 - Sep 2019

- Started as an entry-level developer and grew into an end-to-end enterprise mobile application developer.

PROJECTS

AOL (America Online) | Swift, SwiftUI, GAM SDK

App to manage AOL Mail, read top news, check local weather and watch trending videos in one place.

- Added a tracking module on the mail details page.
- Worked with backend teams for a smooth GCP migration.
- Managed affiliate links and analytics; fixed bugs.

Bose Music App | CoreBluetooth, MVVM-C, RxSwift, WebSockets

Consumer app to connect and control Bose earbuds, speakers and soundbars.

- Added surround features for earbuds.
- Implemented device grouping with dynamic change of master device.
- Implemented the Alexa X app flow; fixed bugs.

Sprouter | MVP, Realm, Deep Linking

Social media aggregator to post to Facebook, Twitter, Instagram, YouTube and more from one place, with a unique profile of custom links and files.

- Built Custom Links and Custom Files.
- Added offline storage to the existing app; performance tuning.

GTComplyRite | VIPER, Realm, Firebase, GCD

Online/offline FSSAI compliance auditing app for food manufacturers, usable by auditors in remote areas.

- Designed wireframes and prototypes from scratch; adopted the VIPER architecture.
- Improved responsiveness using Xcode Instruments.
- Implemented offline functionality using Realm and REST API integration.
- Mentored new joiners in Swift and iOS development.

CultureWerkz | Cordova, Ionic 3, SQLite

Hybrid app aligning individual objectives, key activities and key results with organization goals, flagging risks.

- First hybrid app developer in the organization; built prototypes and integrated REST APIs.

KnockKnockDoc (KKD) | XMPP, WebRTC, Core Data, PushKit, CallKit

Real-time chat app for US healthcare providers with messaging, media sharing, and audio/video calls with end-to-end encryption.

- Designed audio/video call screens; implemented XMPP signaling and WebRTC calling.
- Delivered a POC on end-to-end encryption using OMEMO (AES-256).

EDUCATION

B.Tech in Electronics and Communications Engineering (ECE), Gudlavalleru Engineering College | 2013 - 2017
